Braining

Safe & effective neuro-feedback brain training

Braining is short for "brain training." It's a great option for dogs and cats who struggle with anxiety. Neuro-feedback nodes attached to your pup's body measure and interrupt turbulent brain activity. The treatment instantly and gently trains your pet's brain to release habitually nervous responses to ordinary daily moments.

Benefits of braining

Improved Sleep

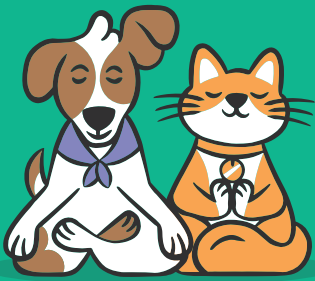

Decreased Anxiety

Overcome Past Trauma

Increased Trust & Bonding

Can Enhance Medical Treatment

Gentle & Non-Invasive
